CIVIL ENGINEER II

CPS is seeking a Civil Engineer II to provide extensive experience in serving the engineering needs of municipalities, DOT's, and private clients, which may include planning and developing plans for street and utility construction and rehabilitation, new developments, and transportation related projects.

REQUIRED EDUCATION AND EXPERIENCE

- Bachelor's Degree in Civil Engineering from an ABET Accredited School.
- Registration as a Professional Engineer (PE) in the state of North Dakota or ability to obtain registration within one (1) year of employment
- 4 or more years of proven engineering experience.

ESSENTIAL QUALIFICATIONS

- Excellent verbal/written communications, time management, interpersonal and organizational skills.
- Display high level of initiative and ability to manage multiple projects with clear expectations and timeliness.
- Proficiency in the use of Microsoft Office.
- Experience in Civil 3D and/or Microstation/OpenRoads Designer is preferred but not required.
- Problem solving, multi-tasking, and analytical skills.
- Positive attitude under pressure, strong team member, self-starter, and self-motivated.
- Requires a valid driver's license and insurable driving record.

RESPONSIBILITIES INCLUDE

- Provide engineering services to our clients on projects related to sanitary sewer collection and treatment, water distribution, stormwater, and roadways.
- Provide technical direction over engineering technicians and/or function as a technical specialist, formulating and developing advanced civil/municipal engineering concepts and reports.
- Work as a project team member with CPS staff and subconsultants.
- Ability to work in the field as project engineer overseeing construction observation activities and compliance with construction documents.
