

CIVIL ENGINEER I

CPS

CPS, Ltd. is a Grand Forks-based Civil Engineering and Land Surveying firm with a 4-decade history of providing professional services for land development and municipal, transportation, traffic, and environmental engineering and surveying. We are seeking an entry-level Civil Engineer to provide office and field assistance to project engineers working with municipalities, DOT's, and private clients.

PRIMARY DUTIES AND RESPONSIBILITIES

- Assist project engineers in designs related to sanitary sewer, water distribution, stormwater, roadways, and site plans.
- Work as a project team member with CPS staff and sub-consultants.
- Work in the field as a project observer overseeing construction activities and compliance with construction documents.
- Assist in client and contractor communications.
- CAD Design and Drafting.

QUALIFICATIONS

- Bachelor's Degree in Civil Engineering from an ABET Accredited School.
- Excellent verbal and written communication, time management, interpersonal and organizational skills.
- Display a high level of initiative and ability to manage multiple project tasks with clear expectations and timeliness.
- Proficiency in the use of Microsoft Office.
- Ability to prioritize and multitask.
- Problem-solving and analytical skills.
- Positive attitude under pressure, strong team member, self-starter, and self-motivated.
- Requires a valid driver's license and insurable driving record.
